CERTIFICATE

FOR: WELDING SUPERVISOR AZIZ YUCETEPE

TO: WHOM IT MAY CONCERN

In the time April 2008 to April 2009 Mr. Yucetepe has been working on the Oguz-Gabala-Baku Water Pipeline Project wellfield construction for Arsan- Özalp Joint Venture as Welding Supervisor and Inspector for Non-Destructive Testing of field welds.

He planned and implemented PQRs & WPQs in coordination with material testing company MQS based in Baku / Azerbaijan. Materials welded on site and field workshop prefabrication have been low carbon steel (St 37) and stainless steel (AISI 304L) piping installed in wells of 150 m depth and up to DN 550.

In addition he managed and arranged for well trained welding personnel. For quality management he executed visual welding inspection, followed up welding design requirements and applied dye penetrant testing on stainless steel welds.

In addition he supported the Contractor AO JV in the construction of piping appurtenances, elevators and clamps for pipe installation.

Mr. Yucetepe executed his work successfully and to our satisfaction. We wish him success in his future professional life.
