Petroleum & Gas Industry - Power Industry - Petrochemical Industry.

Significant experience gained in the welding and fabrication industry. Working Offshore / onshore Power station, petrochemical plant, oil refineries at fabrication yard on green field sites and live Installation. Welding Opr. / Welding Inspector / Supervisor / Trainer **(+32 Years)**, taking full responsibility for Production welds made on sites. Deployment of welding crews and compliance of approved welding Procedure and protocols. Over see and ensure the quality of workmanship as per client specifications. Calling up intermediate and final N.D.E carry out welder qualification test using approved welding procedure in adherence to client specifications in conjunction with **ASME IX / B31.3 EN 287-288 EEMUA 158. API 1104 BS 4515** advanced safety Audits, stop cards and Risk Assessment. Multi Coded Welder **(15 Years)** with good hands on experience on the following processes. **SMAW, GTAW, SAW, GS- FCAW** and fully automated techniques, using CSR and wire fed application on Polysoude and Dimetrics orbital welding heads.

TECHNICAL SKILLS

- Experience in power plants, refineries, O&G pipelines, piping, tanks, and heavy steel structures.
- Deep expertise in fabrication and erection of piping, boilers, pressure vessels, and furnaces.
- Skilled in preparing weld maps, test packs, spooling details, and tracking fabrication progress.
- Strong knowledge of international codes/standards: ASME, API, ASTM, ISO, and EN.
- Familiar with major client specifications including BP, Exxon Mobil, Fluor, and Technip.
- Experienced in quality/welding inspection, NDT (VT/PT), and welder qualification.
- Proficient in welding processes (SMAW, GTAW, FCAW, SAW) and associated consumables.
- Inspection expertise in Carbon Steel, Stainless, Duplex, and Alloy steels.

WORK EXPERIENCE

Mechanical Works Manager

SIBA CONSULTANCY ENG. LTD. | Caspian Technology Supply

Project: Malibey, Minkend, Qalaca, Terter HPP / *Lacin, Azerbaijan* / **2025-2025**

- Management of all piping, welding activities, and structural steel erection Works.
- Coordination of mechanical completion and handover processes.
- Responsible for organizing material and personnel for all site activities.

Welding Supervisor

JGC CONSTRUCTION CO. | ILK Construction

Project: Basrah Refinery Upgrading Project GC2 Package / *Basra, Iraq* / **2024-2025**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Supervisor

MAİRE TECNİMONT – KT | ILK Construction

Project: HAOR Modernization Project / *Baku, Azerbaijan* / **2022 - 2024**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Supervisor

TECNİCAS REUNİDAS | Gomag Energy

Project: HAOR Modernization Project / *Baku, Azerbaijan* / **2021 - 2022**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Supervisor

MNPZ | Socar Construction

Project: MNPZ HydroCracker Unit / *Mozyr, Belarus* / **2020 - 2021**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Supervisor

TECHNİPFMC | Ustay Construction

Project: Azerikimya – EP300 / *Sumqayıt, Azerbaijan* / **2019 - 2020**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Supervisor

MAİRE TECNİMONT – KT | Ustay Construction

Project: Socar Polymer / HDPE Facility / *Sumqayıt, Azerbaijan* / **2017 – 2019**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Supervisor

BP | ATA Consortium (Amec-Tekfen-Azfen)

Project: Shah-Deniz-Stage-2-SD2 Fabrication. / *Baku, Azerbaijan* / **2015 – 2017**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.

Welding Foreman

SOCAR | Tekfen Construction

Project: Baku Olympic Stadium Project / *Baku, Azerbaijan* / **2013 – 2015**

- Supervision on Piping and Structure Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Welding Foreman

BP | ATA Consortium (Amec-Tekfen-Azfen)

Project: WC-PDQ Topside / *Baku, Azerbaijan* / **2011 – 2013**

- Supervision on Piping Fabrication & Erection welding.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control for all welding concerns.
- Supervision of all the welders (SMAW, GTAW) during the performance of the work.
- Reporting compilation of all final QA / QC, NDT and Progress Follow-up etc.

Piping & Welding Supervisor

CES CONSULTING | Gulf Drilling Supply FZA / Arsan & Ozalp JV

Project: OGB Water Pipeline Drilling Borehole / *Oguz, Azerbaijan* / **2008 – 2011**

- Supervision on Drilling Borehole Piping Fabrication & Erection.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality Control.

Welding Supervisor

BP | Entrepouse Contracting | TML Borova Joint Venture

Project: Sangachal Terminal 2nd Produced Water Tank Construction /

Baku, Azerbaijan / **2007 – 2008**

- Supervision on Erection welding of 21000 m3 capacity Produced water Tank.
- Responsible for organizing material and personnel for all welding activities.
- Coordination with construction management and cooperation with Quality control.
- Supervision of all the welders (SMAW, GTAW, SAW).

HANDS-ON EXPERIENCE (WELDER 1992 - 2007)

Welder

AIOC | ATA Consortium (Amec-Tekfen-Azfen)

Project: COP-WC-PDQ-Fabrication Topsides / *Baku, Azerbaijan* / **2006 – 2007**

- Working on Fabrication & Erection of TPG 500 off-shore platforms.
- Welding on (GTAW / FCAW-GS / SMAW) welding Processes.
- Materials: Carbon steel, Low Temperature CS, SS, Cu-Ni, Duplex SS, Super Duplex SS with Corrosion Test Acc.

Welder

AIOC | Technip | MQS

Project: TPG 500 outside North Sea / *Baku, Azerbaijan* / **2005 – 2006**

- Working on Fabrication & Erection of TPG 500 off-shore platforms.
- Welding on (GTAW / FCAW-GS / SMAW) welding Processes.
- Materials: Carbon steel, Low Temperature CS, SS, Cu-Ni, Duplex SS, Super Duplex SS with Corrosion Test Acc.

Welder

BTC & SCP | CCC

Project: AGT Pipeline / *Baku, Azerbaijan* / **2004 – 2006**

- Working on Fabrication and pipeline of AGT pipeline. 1/2" and over.
- Welding on (GTAW / SMAW) welding Processes Up-Hill and Down-Hill.
- Materials: Carbon steel, Low Temp CS, Stainless steel Test Accepted.

Welder

BP EXPLORATION CASPIAN SEA LIMITED | Tekfen / Azfen Joint Venture

Project: Shah Deniz gas exports Sangachal termin. / *Baku, Azerbaijan* / **2003 - 2004**

- Working on Fabrication and at site of Expansion Terminal (Sangachal). 1/2 inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, Duplex SS, Super Duplex SS.

Welder

MITSUBI - MITSUBISHI HEAVY INDUSTRIES CONSORTIUM | TML Borova

Project: Severnaya 400 MW Gas Combined Cycle Power Plant /

Baku, Azerbaijan / **2001 - 2003**

- Working on Fabrication and at site of Severnaya Power Plant. 1/2 Inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, P91, P22, P11.

Welder

TUPRAS TURKISH PETROLEUM REFINERIES CO. | Entes | Epro Energy

Project: CCR & Isomerization units / *Izmit, Turkey* / **2000 - 2001**

- Working on Fabrication and at site of Tupras Refinery. 1/2 Inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, P91, P22, P11.

Welder

TUPRAS | FWI & Gama Industry Consortiom

Project: Isomerization Unit / *Izmir, Turkey* / **1999 - 2000**

- Working on Fabrication and at site of Tupras Refinery. 1/2 Inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, P91, P22, P11.

Welder

UZBEKNEFTEGAS | Tekfen Construction and Installation Co. Inc.

Project: Fergana Oil Refinery / *Fergana, Uzbekistan* / **1997 - 1998**

- Working on Fabrication and at site of Oil Refinery. 1/2 Inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, P22, P11.

Welder

PETKİM | Engin Makina

Project: Etilen Polietilen Petkim / *Izmir, Turkey* / **1995 - 1997**

- Working on Fabrication and at site of Petkim. 1/2 Inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, P22, P11.

Welder

TUPRAS TURKISH PETROLEUM REFINERIES CO. | Atilla Dogan

Project: CCR & ISO Unit / *Izmir, Turkey* / **1991 - 1993**

- Working on Fabrication and at site of Tupras Refinery. 1/2 Inch and over welding (GTAW / SMAW). Materials: Carbon steel, LTCS, Stainless Steel, P22, P11.
